Wall of Fame

From The President

Dearest Eagle,

Welcome to 2021!!! Regardless of the fact that we are in February already, I would like to welcome you to a healthy, blessed, blissful and prosperous year. Welcome to a year of continuous triumphs and victories, regardless of the challenges we might face.

2020 was a year for the books and I pray that the lessons learned will continue to propel us forward in Jesus name.

One of the important lessons of 2020 was the need for community. It was more apparent that doing life alone is less than ideal for anyone. It was the energy of friends and family that kept hope alive in our hearts, even in the midst of a global pandemic. It was the heartwarming messages of people checking up on us that kept us going and reminded us that we truly matter.

In 2021, I hope that we remember to stay in community - the CUALA family is one of the families available to you. Stay connected - to your class group, your chapter (we will send all your chapter WhatsApp group links to you via email), your service unit, your graduation year, on WhatsApp (or Signal or whatever your preferred platform is). If your class or service unit doesn't have a group, set it up. Don't wait for anyone to do it for you.

Stay connected to the broader CUALA community via emails (we don't spam but we'll send you a letter once a month with important information), via the website (our job board gets updated very often), via online events (follow us on IG and join the Facebook group) and via physical events (COVID-willing). We all need one another - if one of my wings gets broken, the only way I can still soar is if other Eagles rally round to carry me.

Beyond staying connected, get involved. Serve with your time, skills (shout-out to all our amazing volunteers), resources (another shout-out to everyone who paid their dues and made donations) and networks (two thumbs up for everyone who connected us to great opportunities). Again, I'd like to specially thank every volunteer, every financial contributor either through dues or donations, every resource contributor either through sharing knowledge with us or bringing opportunities our way. We couldn't have achieved much without you and we deeply appreciate you. God bless you all.

2021 is an election year for CUALA and there will be a change of guard in the leadership team. The best way to lead is by service, so we encourage you to join a team and find opportunities to serve. There is a joy and fulfillment that comes from serving - I can tell you that for free! To be eligible to run for office, you also need to demonstrate engagement and service to the Association - he who is faithful in the little things will also be faithful in the big things.

Finally, this year, let us not waver in our faith. In the midst of all the chaos, God remains the only stable unchanging person, so hold on fast to THE anchor for our souls.

Despite all the many wins of 2020, we are forging forward to serve you even better in 2021. We have a lot in store for you this year, so stay connected and get involved so you can take advantage of all the amazing opportunities ahead.

Yours in building a stronger Alumni for All,

Kemi Onabanjo-Joseph

Highlights

Automated dues statements

We have improved the process for Eagles to check their alumni dues status. The new Alumni Dues Statement (an official document that shows an Eagle their dues status) which was launched in 2020, is now accessible online. From the click of a button, an Eagle who is subscribed to our database will be able download their Dues Statement and make payments easily online.

Simply click on the link below to take a look at your dues statement. You should also pay your dues while at it :-)

Alumni Dues Statement - <https://tinyurl.com/findmycualadata>

External Audit & Regulatory Compliance

We understand the importance of keeping a healthy and transparent record of financial activities. To sign-off on our financial records for the year, an accounting firm has been engaged to conduct an independent assurance review of the Association's financial records for the 2019 and 2020 financial years. The audited financials would be shared with the community upon conclusion, in the first half of 2021.

In order to fully align with all regulatory requirements, we reviewed our compliance status against the PAYE (Pay As You Earn) tax and pensions requirements for our Secretariat staff. We are pleased to announce that we have full regulatory compliance across these areas, in line with our aspiration to be a reputable organization.

Online Payments

With Eagles in every corner of the world needing to pay for services, make donations or pay dues, we have now set up online payment facilities to make things easier and seamless. On the '**Payments**' tab on the CUALA website, Eagles can now pay for services, dues and donations via our website. We also want to use this as an opportunity to discourage direct bank transfer payments because bank transfers take longer to reconcile, especially if the payer's name does not exactly match what we have on our records. The future is digital and we are ready for it- we will continue to explore additional payment platforms in 2021.

Loan Defaulters & Recovery of Loans

At the beginning of 2020, outstanding loans (given to Eagles in good faith between 2017 and 2019) stood at about N7 Million Naira. We have been pushing for the recovery of these funds to enable us fund other value-adding activities and support more Eagles. So far, we have contacted all Eagles involved, served official notices and requested payment plans, considering the financial impact of the pandemic. Some of the beneficiaries have been very responsive and our efforts have resulted in 35% actual recovery rate with repayment commitments pushing up the recovery rate to 45%. Unfortunately, despite all our pleas, some Eagles have refused to engage with us or make any repayment commitments.

We are now taking measures to recover the outstanding debts.

Highlights

Meeting with The Chancellor & Key University Management

Despite a busy calendar and lockdown/travel restrictions, the Executive Council, led by the President, met with the Chancellor, our Papa, Dr. Bishop David Oyedepo. The meeting was an opportunity to bring the Chancellor up to date on all our Alumni activities. He expressed pleasure at the progress recorded and encouraged us to continue to remain laser-focused on adding value to the Alumni community. While on campus, we also engaged with other Covenant University management representatives including the Vice Chancellor and Registrar to discuss collaboration opportunities that add value to both Covenant University and the CUALA community.

Final Year Students - Tuition Support

The tuition support program was launched to enable final year students that had difficulty paying up their fees fulfil their graduation dreams which would have been delayed due to lack of funds. We are grateful to the 130+ amazing members of the CUALA community that rose to the occasion by responding to the call and raising as much as 3.8 Million Naira within 2 weeks to support 12 final-year students in total. We are also grateful to the individuals/classes (Architecture, Marketing and Mass Communications) that rallied round to sponsor students in those courses. All the beneficiaries, and their parents in some instances, expressed their gratitude and appreciation to the Alumni community. Most notable was the prayers from the widowed mother of a student who recently lost her husband. We are excited to have our incoming Eagles join the family.

TTG (Towards a Total Graduate) Session with 2020 Graduating Class

You will recall that the weeklong TTG programme is aimed at equipping the graduating class with skills and knowledge to prepare them for the world of work. A delegation of 10 Eagles (including some members of the Executive Council) from various courses and graduating classes jointly facilitated an engaging session during TTG with over 1,500 students in attendance. This was a great opportunity for us to meet with the final-year students and share perspectives about the benefits of joining the Alumni community. The reception was warm and the students used the opportunity to connect with the Eagles in attendance to learn more about post-graduation experiences.

Special Feature - Covenant University 18th Birthday Celebration

In celebration of Covenant University's 18th birthday, CUALA organized a week-long series of activities to celebrate. However, all the activities were cancelled due to the #ENDSARS protests across Nigeria around the same time. Regardless, the Covenant University community observed a quiet celebration of the milestone in the presence of the Chancellor, CU management and members of the CU community. During the event, the Vice President (University Relations) delivered a goodwill message on behalf of the CUALA Executive Council.

Employable Graduate Online Course

Job Board Launched.

CV Clinic

We rolled out the first edition of the CV Clinic in April 2020 with a total of 77 beneficiaries across 6 countries. We were able to achieve this due to the generous investment of time and skills by HR professionals within the Alumni community who volunteered. They provided professional advice and support to the beneficiaries of the CV Clinic. The wonderful ladies and gentlemen who helped us deliver this project within such a short time-frame are recognised on the Wall of Fame, which can be found on the concluding page of this report. Overall, the feedback of the initiative has been positive. Due to popular demand, the second edition was launched in December 2020 with 100 CVs submitted for review. An impact report for the second edition will be shared after completion in Q1 2021.

Career Counselling / The Employable Graduate

In a bid to connect with the incoming class of Eagles i.e. 2020 graduating class, we piloted a sponsorship program to a couple of career development initiatives, as part of their TTG (Towards a Total Graduate) experience. The first was an online training program called The Employable Graduate, geared at helping participants understand the world of work, get better prepared to land great opportunities as well as make the best of those opportunities. For the incoming Eagles who needed more guidance on what to do post-graduation, we sponsored them to a Career Counselling program, led by professional career coaches, that helped them develop a deeper understanding of themselves. The program also introduced them to exploring several career opportunities suited to their personalities in a bid to support their journey to choosing a career path. The feedback so far from both programs have been positive and we plan to reach even more Eagles this year.

Mentoring Program Launch

The call for applications for the maiden edition of the mentoring program was launched in October 2020. The program was designed to connect experienced professionals within the Alumni community to less-experienced Eagles who need support/guidance. For the very experienced mentors, the programme is a platform to give-back by providing guidance and support to younger Eagles. For the mentees, the expectation is that the programme will provide them leverage to achieve their career (and business) goals at an accelerated pace. We received applications from a diverse range of sectors and have successfully paired eligible mentees with mentors, based on aligned interests, sectors and relevant experience. In January 2021, a total of 73 Eagles - 40 mentees and 33 mentors - kicked off the maiden edition of the mentoring programme, starting with an induction session. This highly impactful programme will run for 6 months and an impact report will be shared with the community afterwards. The next cohort will be enrolled by mid-2021, so kindly look out for the call for applications.

HR Revamp

In line with our aspiration to be an employer of choice that Eagles and non-Eagles will be excited to be a part of and more importantly, an organization that can deliver services effectively to the community, we reviewed our HR processes to ensure adherence to stipulated guidelines and best practices. The review covered our recruitment process, employee management and other staff related processes. In addition to standardizing our processes, we spent time to ensure that we were able to provide a suitable working environment for our staff that enhances optimum productivity. We engaged the services of a HR Professional to conduct this revamp and have already started implementing the recommended changes.

Eagles registered for evaluation (Alumni engagement platform launched)

New website launched

Highlights

New CUALA Website

In 2020, we launched our new website to serve as a one-stop shop for Eagles - both a service portal and a resource centre for Eagles. This was in response to feedback from Eagles experiencing difficulties with finding correct up-to-date information about services (transcript applications, degree certificate collection, reference letters etc), programs and other activities. The website features a service portal, a job board (where job vacancies are published), a business directory for Eagle-owned businesses, an online payments platform (for dues/donations/services), a platform to submit enquiries/complaints/feedback and more. We encourage you to regularly visit the website for important updates.

Visit our CUALA Website - alumni.covenantuniversity.edu.ng

Increased Participation & Engagement

In July 2020, we started to take a closer look at our participation/engagement levels. The analysis revealed that only around 50% (9,000+ Eagles) of our community were connected to us (via newsletters, social media, surveys, feedback), with the remaining 50% (9,000+ Eagles) completely disconnected/disengaged from our activities.

Thanks to our various online and offline communication channels (newsletters, social media, Alumni Chapters/Groups, Information/Class Representatives and Eagle Volunteers spreading the word), we saw a significant improvement in our engagement levels. As at December 2020, we are connected to 11,000+ Eagles globally, representing about 61% of our community. Our ambition is to reach ALL Eagles and we welcome ideas on how to reach our CUALA family members wherever they are in 2021.

Alumni Engagement Platform - Mighty Networks

The decision to launch an engagement platform came from a simple need - to find ways to connect with other Eagles in similar locations, flights, professions, and other areas of interest. After evaluating a number of platforms across various requirements (ease-of-use, capacity, implementation costs, maintenance costs etc), we narrowed down to the 'Mighty Networks' community platform. It is available on mobile and web, and across all phone types. Mighty Networks allows us to cluster into interest-groups, and allows us to connect easily across professional interests, locations, sets/flights and other sub-groups for networking. We believe this will help us to give value to each other's businesses, careers, lifestyles and more. Simply click on the link below to join us on Mighty Networks.

Register on Mighty networks - <https://cuala.mn.co>

Programs & Activities

Shortly after the Executive Council assumed office in February 2020, the COVID-19 pandemic posed a major challenge to organizing in-person/physical activities for the Alumni community. This restriction was a blessing in disguise as it forced us to explore maximum use of our digital channels, thereby allowing us to stay connected with our globally dispersed community. In spite of the lockdown in various parts of the world, we organised a number of events including Business/Career IG Live Sessions (18 sessions), Career/Business Workshops (3 sessions), Quarterly Worship & Declaration Sessions (3 sessions) and a few other activities aimed at building/supporting our growth and development. We also organized a few in-person workout/fitness sessions at the Eagles’ Hub in Lagos. Finally, a number of Alumni chapters (Ota, Lagos, Europe & USA) organized virtual location-based activities for Eagles in their locations. In 2021, we will create more awareness around our activities to increase participation and engagement.

Highlights

Digitalised Secretariat Services

One of the main responsibilities of the Secretariat is to provide facilitation services for Eagles. Instead of Eagles traveling all the way to Ota to pick up the documents they need from the Academic Affairs department, we have made it easy to get what you need from the convenience of your home. Through our CUALA website, you can now easily and conveniently apply for transcripts, reference letters and even request for your degree certificates to be sent to you. We then submit the applications, on your behalf, to the Academic Affairs department, and do the required follow-up for you.

Our records show that in 2020 alone, we processed 1500+ transcript applications, 100+ reference letter applications and helped 10 Eagles to pick up and deliver their degree certificates to them. This is an invaluable service that we provide to you, and we continue to liaise with all relevant stakeholders to improve the quality of our service delivery. Simply visit our website to access any of our services or submit an enquiry.

CUALA Website - alumni.covenantuniversity.edu.ng

Improved Customer Services

In the course of 2020, we recognised the need to deliver excellent customer service to Eagles who contact the Secretariat for whatever reason. All our secretariat staff and some members of the Executive Council participated in a 2-day customer service excellence training facilitated by a Customer Service expert in the Alumni community. This equipped the team and helped standardize and improve the delivery of our services across all touchpoints. We also launched a customer service rating system in the second half of 2020 to get feedback on the quality of our services. So far, we have recorded 73% Customer Satisfaction (i.e. how satisfied are you after using our services) and 87% Net Promoter Score (i.e. the likelihood of Eagles recommending our services to other Eagles). This is a good start and we are committed to improving this over time. Going forward, after using any of our services, you will be invited to complete a customer service survey. We encourage you to fill out the survey when you receive it so we can identify how to serve you better.

Team movements

You may recall that in July 2020 we published a vacancy to recruit a full time Executive Secretary for CUALA after our previous Executive Secretary, Oreoluwa Adeyinka, moved on to other opportunities. We are glad to announce that Omoshola Adenubi (Biochemistry, 2012) resumed as our Executive Secretary in February, 2021. Our Accounting Officer, Jesuleke Olarewaju (Accounting, 2015 Set), also resumed in January 2021. Finally, 2 interns (from the 2020 graduating class), Ifoghale Eguwe and Rebecca Osiyi, joined the team in 2020 to get work experience and strengthen our operational activities. Overall, our Secretariat is being strengthened and we have observed improvements in our overall efficiency.

Eagles supported through the Eagles Nest Challenge

3

New business Partnerships formed

Highlights

Eagles Nest Challenge

During the year, 10 Eagle entrepreneurs were selected through our ‘Eagles Nest Challenge’ program, and supported through a virtual incubation program which provided capacity building workshops, individual and group coaching sessions, subsidised professional services, publicity / access to market, access to funding, and more. In the course of the program, the COVID-19 pandemic broke out and disrupted businesses, forcing entrepreneurs to re-strategize for survival. Hence, the Eagles Nest Challenge became a haven and a ‘refueling’ platform for the 10 Eagle entrepreneurs to soar higher in their entrepreneurial problem-solving endeavours. The impact report for ENC2.0 will be shared later in the year.

Business Directory & Promotional Activities

Given how strong and vibrant our entrepreneurial community is, we launched a business directory on our CUALA website to provide a platform for Eagles to promote their products and business services. We have also introduced business advertisements on our Instagram page, a service available to Eagles who have updated their business profile on My CUALA Data (bit.ly/mycualadata) and uploaded a high quality business flyer.

Business/Affiliate Partnerships

In 2020, we established our first business partnership with Knowledge Station International (KSI), an Eagle-owned company that provides international education services to anyone looking to study abroad. This is a rewarding partnership providing as much as 20% discount on their consultancy fees to Eagles. Other companies we have engaged with include Stears Business (providing premium news content) and Respair (providing data analysis training). These companies have also offered discounted products/services to our community. We will continue to seek partnerships with organisations that will provide valuable goods/service to Eagles at home and abroad.

Eagles Hub

The Eagles Hub is our fully furnished networking and collaboration center located in Ikeja that also provides co-working and meeting spaces for use. Following a compulsory closure during the COVID-19 lockdown in Lagos, the Hub has re-opened fully and continues to invite Eagles and the general public to use its services at very affordable rates. Additional discounts are available for Eagles.

Establishing our Spiritual Roots

As a God-centric community, we never neglect our roots in Christ. Helping one another stay connected to our spiritual foundations is important so that we stay empowered to fulfill our mission as God's own arrows shot for glory.

In 2020, we launched a quarterly Worship & Declaration session for us as a family to connect in faith and declare God's word over our lives and our community. All the sessions have been super-refreshing and we will continue to have these sessions in 2021.

During the Q1 2021 Worship & Declaration session, we had 7 declarations over us. We believe that we are already seeing the manifestation of these declarations and trust God to continue to confirm His Word in our lives with testimonies.

Click the Link below for our 2021 CUALA Declarations.

2021 CUALA Declarations : <https://www.instagram.com/p/CJ8dN48IY8E/?igshid=gbkduurr8u66w>

Project LiftAnEagle

Upon the declaration of a national lockdown, we swiftly responded to the needs of our Eagles by providing a month's worth of groceries for their sustenance. Through a combination of donations from Eagles and the CUALA welfare purse, we reached a total of 67 Eagles across Lagos, Abuja, Abia and Ondo states. We partnered with Eagle-owned food distribution businesses in Lagos (FoodJaar) and Abuja (CherryBeey) to deliver the packages. The feedback was very heartwarming and we hope to be able to meet the needs of more Eagles in 2021 via more welfare programs.

Welfare Policy

We developed the welfare policy to ensure consistency in handling welfare applications, given the constraints of limited funds. A welfare committee was set up to design a clear framework and end-to-end process covering submission, evaluation and approval of welfare requests. While the Association strives to support as many welfare requests as possible (based on available funds), our recommendation is for Eagles in need to approach their class and departments because from experience, we have seen that those smaller circles/networks are stronger bases of support.

HOPE Foundation

The HOPE Foundation is CUALA's NGO that is committed to external community outreach (beyond the Alumni community) specifically aimed at young people. Despite the pandemic and lockdown challenges preventing the annual community outreach programs from taking place, HOPE leveraged digital technology to organise a number of virtual programs. Between May and September 2020, the online Excel Series program was organised educating the community on various topics. Some of the topics covered include Vision Boards, Personal Finance Management, Personal Branding, Taking advantage of the Digital Economy and Digital Media, amongst others. Please look out for more HOPE updates on our CUALA communication channels as we will be sharing more of these for you to find ways to support our outreach programs.
