## Boluwatife Okesanjo

**It was an insightful session. The review was detailed with notes accompanying each observation. It was also thoughtful of the CV clinic to provide a template for CV, using the CAR method I can better communicate in a concise manner on my CV.**

## Maria Okpe

**The feed back helped me realize that my role description had been a bit passive and even statements that should have been highlighted as achievements, I had put in as role description. It was really good to have someone else have a look at the CV as it brought out things in the CV that I had not noticed before.**

## Oluwaseyi Adeyemi

**The session went well. The HR Professional pointed me to the parts that required re-writing on the CV.**

## Olubukola Sanya

**It was a very good time with the HR consultant. she was able to break down the options I have and the way to achieve my achieve my career goals**

# It doesn't end with the CV Clinic...
