# FROM THE BOARD OF TRUSTEES

## Dearest Eagles,

It is a pleasure to reach out to you, trusting that you are thriving through the various seasons of life. As we reflect on the first half of the year, we are filled with gratitude for your unwavering support and engagement. Your dedication has been the cornerstone of our progress and achievements in the past months.

We have successfully navigated significant changes within the board, appointing Lucille Nsoedo as our new Chair and welcoming Munachi Duru as our newest board member, in line with existing protocols.

We would like to applaud the Executive Committee Team and the entire Alumni Working Group who have continued to demonstrate exceptional work and commitment, advancing our alumni community and fostering a vibrant network.

As a board, we remain committed to strategic leadership and upholding the highest governance standards.

As part of our delivery, we have made great progress with preliminary work on the association's constitution review, enlisting a vetted legal consultant to conclude this process. Our goal is to ensure that set governance frameworks continue to evolve in meeting the needs of our growing community, in alignment with best practices.

As we move forward, we are excited about the opportunities ahead and confident that together, we will continue to soar as generational leaders.

Thank you for your continued support and dedication to CUALA.

We look forward to another successful half of the year, strengthened by our shared commitment to excellence.

Signed

*Board of Trustees, CUALA*

# PRESIDENTIAL ADDRESS

## **My Dearest Eagles,**

I trust we are all well and soaring in our various spheres of influence. My first couple of months in office have rolled by very quickly and I am excited for this opportunity to write to you.

Your elected leaders have made significant progress in delivering on the promises made during the elections. As a team, we have continued to lay strong emphasis on robust governance and accountability whilst delivering on our core priority of empowering the economic status of Eagles. The goal is to create diverse opportunities for your overall empowerment and help you leverage this global network; regardless of where you are in the world.

As we close out on a solid pipeline of events and strategic partnerships, I remain optimistic about the rest of the year. From the investiture of our soon to be released Eagles to Papa's 70th birthday; there are a lot of opportunities for everyone to get involved and I encourage us to find a place of contribution. The icing on the cake remains our annual Eagles Summit which will be held in October so be on the lookout for announcements and plan to attend!

I could not be more proud of our collective achievement as a thriving community. I am particularly grateful for the hard work of our amazing team of volunteers and the dedication of our Alumni Working Group. Indeed, we are in very interesting times and continue to record economic events that shake the very foundations of society yet none of these has broken the spirit of our family. This gladdens my heart and keeps me hopeful for all that we will become if we continue to solidify our connections - whether at a Flight Level, Chapter level or within a Micro-community. Indeed, our Alumni Association is an amazing place and I am always proud to call it HOME.

Until I write to you again, I remain committed to you in service.

Signed

*Ebi Obode*

President, CUALA

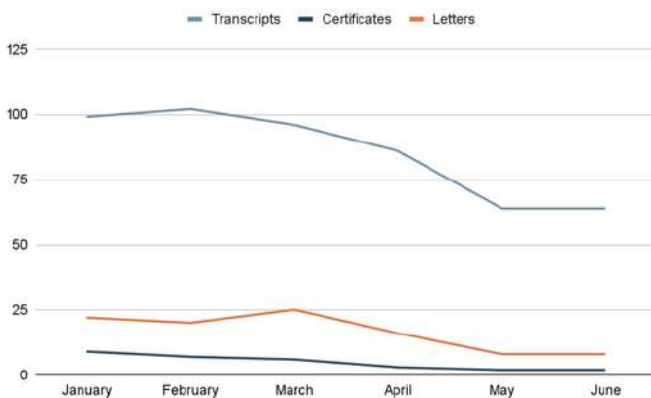

# SECRETARIAT

One of our most frequently used services is the application for official transcripts. To enhance our service delivery and customer experience, we actively seek feedback from our customers. We concentrate on two key performance indicators:

- The Customer Satisfaction Score (CSAT) and
- The Net Promoter Score (NPS).

The CSAT assesses customer satisfaction with our services, while the NPS indicates how likely an applicant is to recommend our services to others. In the first half of the year, we had a Customer satisfaction score of 89%, and a net promoter score of 85%.

The table & chart below shows the number of applicants of our services in the first half of the year;

The table below shows a monthly representation of our customer satisfaction and net promoter scores for the first half of the year;

Month	CSAT	NPS
January	93%	90%
February	95%	100%
March	90%	100%
April	88%	90%

# COMMUNITY ENGAGEMENT

## HIGHLIGHTS

- 22% growth in the CUALA Professional Community (LinkedIn group)
- Launched Eagles Launchpad; a new series for Eagles to launch brands, products & services to the community.
- Top 5 Eagle locations by population - Nigeria, United Kingdom (UK), Canada, United States of America (USA) & Ireland

- Most active interest - based CUALA communities - Singles & Mingles, Eagle Book Lovers, Eagles Parenting group, Eagle Travel Enthusiasts & Eagles in Tech

## KEY ACTIVITIES

**1. Onboarding of Eagles:** Engagement is only possible when there is connection. We've made it easier already for Eagles to find and join their respective flight/chapter groups by leveraging the data we hold of Eagles. For Eagles who update their records with their details (flights/current location), subsequent emails will include join links to their respective flight and chapter WhatsApp groups, and welcome messages. The plan is to extend this onboarding journey to fresh CU graduates, as we welcome them into the CUALA community.

**2. CUALA Calendar:** We launched a central CUALA calendar allowing Eagles to subscribe to a real-time calendar of our events from the comfort of their mobile phone. This makes it easy for Eagles to be aware of what's coming, and how to sign up for events/activities of interest. The CUALA calendar has proved to be a great way to keep Eagles connected to CUALA activities and stay up to date.

**3. Weekly Community Updates:** There has been an increase in activities and news across the community. To make news, updates and event notification easier to digest, we launched a weekly community update that shares top updates with Eagles across our community channels. This helps keep Eagles informed on activities so they don't miss out on value-packed events and other networking activities.

**4. Eagles Launchpad:** We listened to the need for Eagles to get more visibility for their brands and businesses. We've recently launched the Eagles Launchpad program where Eagles can apply to get their newly launched businesses, brands, products and services promoted on key CUALA platforms. Our maiden event was a LinkedIn live session where 3 Eagle authors were interviewed on their recent books, and introduced to the community. This opportunity will help Eagles promote their brands, and boost orders/sales too.

## SCOTLAND UPDATE

The Scotland chapter recorded some events over the last few months to build connections & engagement across members within Scotland. Big appreciation to Oluwatoni Ogunfusika and the volunteers who assisted in making this happen. Unfortunately, due to personal circumstances, the chapter lead became unavailable and couldn't continue in his elected role. The Scotland community has since been updated via email and other internal communication channels via memos circulated on 15th April 2024 and 3rd June 2024 respectively.

To keep the Scotland community engaged, members are still part of the wider Europe community groups so they remain connected to CUALA activities with the support of the Europe Chapter lead (Gift Ifeyi) and VP Community Engagement (Sanmi Gbadegesin).

# UPCOMING INITIATIVES

- **More product launches (Jul - Dec 2024):** Since launching the Eagles Launchpad, we've received a number of applications from Eagles who would love their new businesses, brands, products and services launched within the CUALA community. We will do more over this over the next few months to give as many Eagles the visibility they desire.
- **Eagles Professional Community:** We will continue to promote the existence of our professional community so that Eagles can use the space for building professional connections, exchanging opportunities and offering professional support.
- **Community Outreach Program:** We are aware there are a number of Eagles who may be disconnected from the activities of the association for a number of reasons. We are launching an outreach program that helps us attract and connect with Eagles globally.
- **New communities:** Using data and interests from the community, we initiated some new communities. This includes location (Ghana, Kenya, South Africa, Australia) and interest-based groups (Eagles in counseling, Eagles in construction) groups. As these groups grow, we will share more updates with the community.

## REVENUE / EXPENDITURE BREAKDOWN (CONT'D)

(as at YTD May 2024)

Assessment of YTD May 2024 financial performance in comparison with YTD May 2023 are as below:

### A. Revenue

#### A. Revenue

The total revenue decreased significantly from N39.8m in YTD May 2023 to N12.7m in YTD May 2024 primarily due to the receipt of N20.88m donations into the Endowment Fund (launched as part of the CU @ 20 celebrations) in October 2022. Also, as at May 2023, the first dues from the graduating set totaling N8m had been received. CUALA is due to receive the first dues for 2024 later this year.

### B. Expenditure

Total expenditure increased by 2% between the periods from N10.17m in May 2023 to N10.33m in May 2024. This was primarily due to the election expense for the supplementary elections in March 2024 and student tuition support costs.

# FINANCE

## KEY ACTIVITIES

**1. Fundraising Activities:** In April 2024, the Finance directorate made giving easier by introducing automatic recurring payments as well as donations in dollars (\$). These features were made available in addition to the already existing one-off Naira (N) payments process. We encourage Eagles to check out these features via our [website](#).

Thanks to the communications and community engagement directorates, monthly dues reminders were added to the CUALA calendar. This effort serves a monthly reminder to Eagles to pay their CUALA dues and continue supporting the activities and projects being executed in the Association.

**2. Endowment Fund Update:** As at the time of this report, the total amount raised for the Endowment Fund amounts to c.N65m. In January 2024, CUALA awarded scholarships to 5 Covenant University students in line with the inaugural CUALA Eagles Scholars Award program. Details of the recipients can be found [here](#).

The partnership aims to improve access to capital market education for Eagles. Under the partnership, CUALA executed the first session tagged “Introduction to the Capital Market (Stocks and Bonds)” facilitated by the Head of Corporate Finance, FCSL in May 2024. Look out for more sessions in the course of the year.

## KEY ACTIVITIES (CONT'D)

### Looking Ahead

The Finance Directorate is committed to ensuring that transparency is upheld and that all members of our Association are carried along on any matters (financial and otherwise) as they arise.

- In the first half of the year, the CUALA leadership and Finance Directorate worked together to provide clarity and more information on pending financial issues for the Association. These concerns were addressed in a memo circulated on the 31st of March 2024 and during a finance town hall held on the 7th of April 2024. Subsequently, a community update email was sent on the 16th of April 2024 outlining the next steps to be undertaken by CUALA leadership regarding the pending financial issues.
- One of the major steps to ensuring that financial transparency is upheld was the appointment of new auditors by the CUALA Board of Trustees (BoT) in April 2024 to audit our 2023 financial records. The appointment of the auditors was concluded following a call for external auditors in Q4 2023. The auditor selection process was based on the audit firm's experience with NGO audit, cost, staffing and time for delivery. The audit is currently in progress and the signed reports will be published once the exercise is completed.
- The Finance Directorate introduced Finance Quarterly updates; the Q1 2024 finance updates were shared in the CUALA monthly newsletter dated May 2024. Eagles will continue to receive quarterly updates going forward.
- In April 2024, there was a call for consultation on the existing finance policy. The Finance Directorate is in the process of reviewing and revising the finance policy based on the suggestions submitted by Eagles. The Finance Directorate appreciates all Eagles who took their time to review the policy and proffer constructive criticism and suggestions.

## UPCOMING INITIATIVES

There is so much to look forward to in the next half of the year and the Finance Directorate is committed to ensuring that key projects/activities are executed as well as other operational activities in the Finance Directorate to support the sustainability of our Association.

- Complete the 2023 external audit exercise and publish report
- Share Q2-Q4 Financial Updates with the community
- Launch of Corporate HMO for Eagles
- Finalise the updated Finance Policy following recommendations
- Execute a Green Finance Day Event in collaboration with the Business Directorate

# WELFARE

The Welfare Directorate is committed to enhancing the holistic well-being of Eagles in a sustainable and cost-effective manner. We consistently provide support to our members utilizing available resources and actively pursue partnerships to advance our goals.

## KEY ACTIVITIES

**1. Goal Setting:** At the beginning of the year, the Directorate initiated an engagement within our community by collaborating with a renowned productivity expert. This initiative aimed to help Eagles organise their lives and improve productivity. The session was comprehensive, covering several key areas to ensure effective goal-setting and time management.

**2. Welfare Support:** In line with our mandate to establish and maintain high welfare standards for our alumni, we have been diligently receptive and open to numerous welfare requests from our Eagles over the past few months. Despite our limited welfare budget, we remain committed to supporting our members both financially and otherwise.

To date, we have received a total of seventeen (17) welfare cases, of which five (5) have been approved in accordance with our welfare policy. For the cases that were not approved, we took alternative steps to ensure our members received the assistance they needed. Many of these cases were referred to the Business or Career Directorate for further support, such as resume reviews or connections to successful businesses within our community.

Through these efforts, we strive to provide comprehensive support to our Eagles, leveraging the resources and networks within our community to meet their diverse needs.

## Key Highlights

- Started the year by inaugurating College based representatives to facilitate free flow of information and communication within the flight:
  - CST- CINCI Osagiede
  - CHD: Doyin Taiwo
  - CBS: Tutu Aboderin
- We had our first Event targeted at celebrating International Women's Day in collaboration with VP Careers and the careers directorate titled Invest in woman accelerate progress to inspire inclusion. We had approximately 60 Women in attendance.
- We started a quarterly Virtual Business Market place within the flight's Whatsapp group with people recommending brands owned by flight members they have patronized and business owners also pitching their businesses and services they offer. This drove up engagement within the flight.
- A key part of my campaign was to help members within the flight build financial posterity leveraging financial education. To achieve this, I facilitated the FCSL program for adoption by the VP finance to drive impact across CUALA and not limit the opportunity only to 07 flight. The program's initial event attracted over 70 Alumni members and the feedback on the program has been exceptional
- In terms of growth within the flight, we are now 308 members within the flight's Whatsapp group and are presently welcoming at least 2 new members bi-weekly.
- Managed 3 Welfare cases in collaboration with the VP Welfare, VP careers and VP Business.

## Upcoming initiatives

In 2024, we intend to commence plans and projects that will unite us as we noticed there is a bridge based on the length of broken connectivity spanned over our non-existence in the big group, that's CUALA.

This led to the creation of the WhatsApp group that has birthed a community of over 300 Eagles with the most active countries being Nigeria, USA, Canada & the United Kingdom. It must be stated that the membership is still increasing. We anticipate a 25% increase in the number of Eagles in the WhatsApp group before the end of the year.

# 2021 FLIGHT (PACESETTERS SET)

On the 6th of May, 2024, my Tenure as the 2021 Flight Lead officially began. This is the first time that the Pacesetters Set would have a Flight Lead so the first few days were used to set up the set community group which has grown to a vibrant community of 177 people and counting.

These first 2 months have been focused mainly on creating awareness of the various opportunities each member of the 2021 alumni body stands to benefit from being active in the community. Members have gained much knowledge from the events held thus far, especially from the sessions on “Relocating Abroad” and “The Career Power Series” conducted by other Flight Sets.

The primary focus has been sharing job opportunities from top companies like KPMG, Deloitte etc. as well as startups. Every week, about 2+ job opportunities from these companies are shared on the community group. This ensures that job-seeking members are always aware and are ready to get these opportunities.

## Key Activities

- **Creation and Growth of the Alumni Whatsapp Community:** The group was opened on the 23rd of March, 2024 and has grown to a vibrant community of 177 members and counting.
